to me

Richard,

I drove thru tropical storm conditions this morning to go to a BP station at 10:00pm last night to pick up the package you shipped. I appreciate the lack of about phone calls at 10PM on a Sunday night. First time dealing with a

Got the box back to my shop. Outer box looked good, no damage. Ir the box and inspected the kit. Everything was sealed and looked okay the upper left main wing is broken and will need to be replaced. I have links below of the wing damage.

Please let me know how we can handle this as quickly as possible.
